¹ Swisscom uses various alternative performance measures. The definitions and the reconciliation to the values in accordance with IFRS are set out in the interim report on pages 25 and 26.

Business performance

Summary

In the first half of 2020, Swisscom's net revenue and operating income before depreciation and amortisation (EBITDA) were slightly below the previous year. The Covid-19 pandemic has had a particularly negative impact on roaming revenues, but the overall impact on financial results in the first half of 2020 is small. Swisscom's net revenue fell by 3.9% or CHF 220 million to CHF 5,443 million, while EBITDA declined by 1.4% or CHF 32 million to CHF 2,208 million. The revenue decline in the saturated Swiss core business continued. The CHF 165 million decline (–3.9%) in revenue is mainly driven by ongoing price pressure and the impact of Covid-19; roaming accounts for around a quarter of this (CHF 41 million). By contrast, revenue at Italian subsidiary Fastweb increased in local currency by EUR 56 million (+5.3%), with all customer segments reporting revenue growth. The number of customers with Fastweb increased year-on-year by 3.5% to 2.7 million in the broadband business and by 18.1% to 1.8 million in mobile telephony. In the Swiss core business, EBITDA fell by 1.2% or CHF 22 million. The decline in net revenue could be largely offset thanks to lower costs. At Fastweb, EBITDA in local currency increased by 4.6% or EUR 16 million as a result of the growth in revenue. Consolidated net profit of CHF 736 million is 5.6% or CHF 44 million lower than in the previous year, mainly as a result of the lower EBITDA.

Swisscom's capital expenditure of CHF 1,075 million was 17.1% or CHF 222 million lower than in the previous year. Capital expenditure in the previous year included expenditures of CHF 196 million for mobile radio frequencies in Switzerland. Excluding expenditures for mobile radio frequencies, capital expenditure in Switzerland rose by 1.8% or CHF 14 million to CHF 779 million. The increase stands in connection with the further expansion of network infrastructure. At Fastweb, capital expenditure fell by 7.1% to EUR 276 million; in the previous year, customer-driven investments were above average.

The operating free cash flow proxy increased by CHF 177 million to CHF 983 million. Excluding the previous year's expenses for mobile radio frequencies, the operating free cash flow proxy declined by CHF 19 million or 1.9%. Net debt fell by 7.9% or CHF 616 million year-on-year to CHF 7,171 million. The number of employees at Swisscom declined 3.0% compared to the previous year to 18,984 FTEs. In Switzerland, headcount decreased by 752 FTEs to 16,119 FTEs. In Switzerland, the reduction in the first half of 2020 totalled 509 FTEs.

Swisscom continues to expect EBITDA of around CHF 4.3 billion and capital expenditure of some CHF 2.3 billion for 2020. Mainly as a result of Covid-19, Swisscom expects net revenue to be slightly lower at around CHF 11.0 billion (previously around CHF 11.1 billion) due to the smaller roaming volume. If business develops as planned, Swisscom will propose to the 2021 Annual General Meeting that the dividend for the 2020 financial year remain unchanged at CHF 22 per share.

Segment results

1 Including intersegment recharges of services performed by other network providers.

2 Operating income of segments includes ordinary employer contributions as pension fund expense. The difference to the pension cost according to IAS 19 is recognised as a reconciliation item.

As of 1 January 2020, Swisscom amended its organisational structure in Switzerland and renamed the former “Enterprise Customers” segment “Business Customers”. In order to provide all business customers with a customer experience tailored to their needs, Swisscom merged the SME segment with the corporate customer segment. As a result, the telecommunications and solutions business with small and medium-sized enterprises is now reported in the Business Customers segment (previously Residential Customers) in segment reporting. In addition, Swisscom has bundled its Customer Field Services at its subsidiary cablex Ltd (up to now, in some cases within Residential Customers). This makes it possible to create even more customer experiences and to be even closer to customers. In addition, various areas were transferred between the segments of Swisscom Switzerland and Group Headquarters as of 1 January 2020. The prior-year amounts were restated accordingly. Further information can be found in Note 2 in the Notes to the consolidated interim financial statements.

Net revenue for Swisscom Switzerland fell by CHF 165 million or 3.9% to CHF 4,096 million as a result of the continuing competitive and price pressure and lower roaming revenues. The Covid-19 pandemic has led to a sharp reduction in customer travel, resulting in lower roaming revenues of CHF 41 million. Revenue from telecommunications services decreased by CHF 157 million or 5.2% to CHF 2,848 million. Of this decline, CHF 82 million (−4.0%) was attributable to the Residential Customers segment and CHF 75 million (−8.0%) to the Business Customers segment. By contrast, revenue from the solutions business with business customers rose by 2.7% to CHF 527 million. In the merchandise area, the high volume of the previous year was not matched, with revenue falling by 4.1% to CHF 350 million. The number of inOne customers continues to grow. At the end of June 2020, Swisscom recorded 2.39 million inOne customers in the Residential Customers segment. In this segment, inOne accounts for 68% of postpaid mobile lines and 72% of broadband connections. The market is showing signs of saturation in the area of mobile communications and fixed-network services. The mobile subscriber base contracted year-on-year by 104,000 (−1.6%) to 6.26 million. The number of post-paid lines grew by 61,000. In the case of prepaid lines, it fell by 165,000. The number of broadband connections remained close to stable year-over-year (−0.1%). The number of TV connections increased by 22,000 or 1.4% to 1.55 million versus the previous year. In fixed-line telephony, the downward trend is slowing as the switch to IP technology has been completed. The number of fixed telephony access lines fell year-on-year by 119,000 or 7.1% to 1.56 million.

Segment expense declined by CHF 143 million or 5.9% to CHF 2,282 million. Direct costs fell by CHF 79 million (–8.9%). In addition to the decline in subscriber acquisition and retention costs, the costs for roaming and for purchasing goods also fell. Indirect costs fell by 4.2% or CHF 64 million to CHF 1,476 million. This is chiefly due to the lower headcount and lower costs for advertising. In addition, fewer customer service deployments as a result of the stable networks and platforms have led to a reduction in costs. Headcount fell year-on-year as a result of efficiency measures by 663 FTEs or 5.0% to 12,608, including 447 FTEs in the first half of 2020. The segment result before depreciation and amortisation was CHF 22 million or 1.2% lower at CHF 1,814 million. The decline as a result of lower revenue could be largely offset by the ongoing measures to reduce costs. Capital expenditure decreased by 18.7%. In the previous year, expenditure for mobile radio frequencies amounting to CHF 196 million was included. Adjusted for these expenses, capital expenditure rose on the back of higher investment for the expansion of broadband networks by CHF 18 million or 2.4% to CHF 776 million. As at end-June 2020, over 4.1 million or 77% of all households and businesses were connected with ultra-fast broadband exceeding 80 Mbps. Some 2.8 million or 53% of all homes and businesses benefit from fast connections with bandwidths of more than 200 Mbps. Of these, more than 1.6 million have been upgraded to FTTH. Swisscom intends to make ultra-fast broadband available in every Swiss municipality by the end of 2021, even in remote locations. In addition, compared to 2019 levels, Swisscom plans to double FTTH coverage for households and businesses to up to 60% by the end of 2025.

Full-time equivalent employees				2,605	2,451	6.3%

Fastweb's net revenue rose by EUR 56 million or 5.3% year-on-year to EUR 1,105 million. Despite a challenging market environment, the customer base in the broadband business grew by 92,000 or 3.5% to 2.69 million year-over-year. The number of mobile lines rose by 281,000 or 18.1% to 1.83 million despite market saturation and strong competition. Bundles offerings remain a point of focus. 33% of subscribers use a bundled offering combining fixed network and mobile. Residential customer revenue rose by EUR 20 million or 3.7% to EUR 562 million as a result of customer growth. Fastweb held its strong position in the market for business customers. Revenue from business customers increased by EUR 19 million or 4.6% to EUR 435 million as a result of higher revenue with private companies and public administrations. Revenue from wholesale business increased by EUR 18 million or 20.7% to EUR 105 million.

The segment result before depreciation and amortisation rose EUR 16 million or 4.6% to EUR 365 million owing to the growth in revenue. Capital expenditure decreased by EUR 21 million or 7.1% year-on-year to EUR 276 million. In the previous year customer-driven capital expenditure was above average. Fastweb's headcount increased by 154 FTEs or 6.3% to 2,605 FTEs year-on-year as a result of company acquisitions and the hiring of external staff.

Other Operating Segments

In CHF million, except where indicated	2. quarter 2020	2. quarter 2019	Change	1 st half-year 2020	1 st half-year 2019	Change
Net revenue and results						
Revenue from external customers	106	128	-17.2%	215	266	-19.2%
Intersegment revenue	141	147	-4.1%	275	274	0.4%
Net revenue	247	275	-10.2%	490	540	-9.3%
Segment expenses	(207)	(227)	-8.8%	(408)	(442)	-7.7%
Segment result before depreciation and amortisation (EBITDA)	40	48	-16.7%	82	98	-16.3%
Margin as % of net revenue	16.2	17.5		16.7	18.1	
Lease expense	(3)	(4)	-25.0%	(6)	(7)	-14.3%
Depreciation and amortisation	(14)	(17)	-17.6%	(29)	(35)	-17.1%
Segment result	23	27	-14.8%	47	56	-16.1%
Operating free cash flow proxy						
Segment result before depreciation and amortisation (EBITDA)	40	48	-16.7%	82	98	-16.3%
Lease expense	(3)	(4)	-25.0%	(6)	(7)	-14.3%
EBITDA after lease expense (EBITDA AL)	37	44	-15.9%	76	91	-16.5%
Capital expenditure	(11)	(11)	-%	(18)	(19)	-5.3%
Operating free cash flow proxy	26	33	-21.2%	58	72	-19.4%
Headcount						
Full-time equivalent employees				3,567	3,633	-1.8%

The net revenue of the Other Operating Segments decreased year-on-year by CHF 50 million or 9.3% to CHF 490 million. The decline in revenue from external customers is essentially due to revenue contractions at cablex and Swisscom Broadcast as well as to the loss of Billag's mandate to collect national radio and television licence fees. Accordingly, the segment result before depreciation and amortisation declined by CHF 16 million or 16.3% to CHF 82 million and the profit margin slipped to 16.7% (previous year 18.1%). Headcount fell by 66 FTEs or 1.8% to 3,567 FTEs, driven primarily by the reduction in staff at Billag and a lower headcount at Swisscom Directories Ltd (localsearch).

Group Headquarters and reconciliation

In CHF million, except where indicated	2. quarter 2020	2. quarter 2019	Change	1 st half-year 2020	1 st half-year 2019	Change
Group Headquarters	(19)	(20)	-5.0%	(33)	(37)	-10.8%

Interest expense on lease liabilities	(11)	(7)	57.1%	(22)	(15)	46.7%
Other financial result	(38)	(28)	35.7%	(52)	(25)	108.0%
Result of equity-accounted investees	2	–		3	2	50.0%
Income before income taxes	414	451	–8.2%	882	938	–6.0%
Income tax expense	(72)	(54)	33.3%	(146)	(158)	–7.6%
Net income	342	397	–13.9%	736	780	–5.6%
Attributable to equity holders of Swisscom Ltd	343	397	–13.6%	738	782	–5.6%
Attributable to non-controlling interests	(1)	–		(2)	(2)	–%
Earnings per share (in CHF)	6.62	7.66	–13.6%	14.25	15.10	–5.6%

Net income posted by Swisscom declined by CHF 44 million or 5.6% to CHF 736 million, largely due to the lower EBITDA. Earnings per share declined accordingly from CHF 15.10 to CHF 14.25. The depreciation and amortisation of property, plant and equipment and intangible assets decreased by CHF 19 million or 1.7% year-on-year to CHF 1,078 million, mainly reflecting a decrease in depreciation and amortisation at Swisscom Switzerland and the other operating segments. Net interest expenses excluding leasing remained practically stable compared to the previous year at CHF 30 million. The deterioration in other financial expenses to CHF 52 million resulted primarily from the present value adjustment of provisions. Income tax expense was CHF 146 million (prior year: CHF 158 million), corresponding to an effective income tax rate of 16.6% (prior year: 16.8%). Income tax expense for the first half of 2020 includes positive tax effects of CHF 20 million (previous year: CHF 33 million) as a result of the revaluation of deferred income tax items in connection with the Swiss tax reform. Swisscom anticipates a future effective consolidated tax rate of 19.5%.

Dividends paid to equity holders of Swisscom Ltd	(1,140)	(1,140)	–
Other cash flows from financing activities	(16)	(6)	(10)
Net decrease in cash and cash equivalents	(79)	(119)	40

Operating free cash flow proxy increased by CHF 177 million to CHF 983 million, mainly due to lower capital expenditure. In the previous year, capital expenditure included CHF 196 million for mobile radio frequencies in Switzerland. Excluding the expenditure for mobile radio frequencies, the operating free cash flow proxy decreased by CHF 19 million or 1.9%.

Free cash flow increased year-on-year by CHF 385 million to CHF 761 million. Adjusted for expenditure for mobile radio frequencies, free cash flow rose by CHF 189 million. The increase is due to deferred income tax payments and net working capital development. Net working capital grew by CHF 87 million compared with the end of 2019 (prior year: increase of CHF 161 million).

Net expenditure for company acquisitions and disposals in the previous year includes the purchase price of CHF 240 million paid to Tamedia for the acquisition of the outstanding 31% share in Swisscom Directories Ltd.

In the second quarter of 2020, Swisscom became the first listed company in Switzerland to issue a Green Bond in EUR. The amount borrowed amounts to EUR 500 million. The coupon is 0.375% and the term 8.5 years. The funds will be used according to the Green Bond Framework. The selection of projects is closely aligned with Swisscom's sustainability strategy and at the same time takes into account the UN's Sustainable Development Agenda 2030 and its objectives (Sustainable Development Goals, SDGs). A particular focus is on increased energy efficiency, renewable energies, climate protection (SDGs 7 and 13) and the provision of a state-of-the-art and resilient grid infrastructure (SDG 9).

Equity	8,238	8,875	–7.2%
Equity ratio in %	34.3	36.6	

Operating assets

Net operating assets were virtually unchanged at CHF 18.9 billion (–0.4%). The increase in net debt and the decrease in shareholders' equity compared with the end of 2019 is due to the dividend payment of CHF 1,140 million in April 2020. Correspondingly, the equity ratio fell from 36.6% to 34.3%. Pension liabilities increased as a result of a negative return on plan assets, which was partially offset by a higher discount rate.

Net debt

Net debt is composed of financial liabilities minus cash and cash equivalents, current financial assets, derivative financial instruments held to hedge financial liabilities and other non-current financial assets directly related to non-current financial liabilities (certificates of deposit, U.S. Treasury Bond Strips). Net debt and the net debt to EBITDA ratio are presented both with and without classification of leases as financial liabilities. For credit rating purposes, rating agencies include lease liabilities in the calculation of net debt. However, for the financial target of the Federal Council's financing structure, leases are not classified as financial liabilities or part of net debt.

Net debt incl. lease liabilities	9,129	8,785

In recent years, Swisscom has taken advantage of favourable capital market conditions with a view to optimising the interest and maturity structure of the Group's financial obligations. As at 30 June 2020, the average interest expense on long-term financial liabilities was 0.99%, the average residual term to maturity was 5.45 years and the share of variable interest-bearing financial liabilities was 19%.

Outlook

Swisscom continues to expect EBITDA of around CHF 4.3 billion and capital expenditure of around CHF 2.3 billion for 2020. Mainly as a result of Covid-19, Swisscom expects net revenue to be slightly lower at around CHF 11.0 billion (previously around CHF 11.1 billion) due to the smaller roaming volume. If business develops as planned, Swisscom will propose to the 2021 Annual General Meeting that the dividend for the 2020 financial year remain unchanged at CHF 22 per share.

Due to strong competition and price pressure and the ongoing decline in the number of fixed-line telephone connections, Swisscom expects revenue to be lower without Fastweb. As a result of Covid-19 slightly lower revenue is also expected due to the smaller roaming volume. Fastweb's revenue is expected to increase slightly from 2019. For Swisscom without Fastweb, the decline in revenue cannot be fully offset by cost savings; EBITDA is expected to decline on an adjusted basis. In contrast, an increase in EBITDA is anticipated for Fastweb. Capital expenditure in Switzerland, excluding costs for acquiring additional mobile radio frequencies at auction, will be slightly less than in the previous year. Capital expenditure at Fastweb is expected to be lower.

Notes to the interim financial statements

About this report

General information

The Swisscom Group (hereinafter referred to as “Swisscom”) provides telecommunication services and is active primarily in Switzerland and Italy. The unaudited consolidated financial statements as of 30 June 2020 comprise Swisscom Ltd, as parent company, and its subsidiaries. Swisscom Ltd is a limited-liability company incorporated in accordance with Swiss law, under a private statute, and has its registered office in Ittigen (Berne). Its address is: Swisscom Ltd, Alte Tiefenastrasse 6, 3048 Worblaufen. Swisscom is listed on the SIX Swiss Exchange. The number of issued shares is unchanged from the prior year and totals 51,801,943. The shares have a nominal value of CHF 1 and are fully paid-up. Each share entitles the holder to one vote. The majority shareholder of Swisscom Ltd is the Swiss Confederation (“Confederation”). The Confederation is obligated by current law to hold the majority of the capital and voting rights. The Board of Directors of Swisscom approved the issuance of these consolidated interim financial statements on 12 August 2020. As of this date, no material events after the balance sheet date had occurred.

Basis of preparation

The consolidated interim financial statements for the six months to 30 June 2020 have been prepared in accordance with International Accounting Standard “IAS 34 Interim Financial Reporting” and should be read in conjunction with the consolidated annual financial statements for the financial year ended 31 December 2019. The consolidated interim financial statements were prepared in accordance with the accounting policies described in the 2019 consolidated financial statements and the revised accounting principles adopted on 1 January 2020.

In preparing the consolidated interim financial statements, management is required to make accounting estimates and assumptions. Adjustments are made for changes in accounting estimates and assumptions during the reporting period in which the original estimates and assumptions changed.

Swisscom operates in business areas where the provision of services is not subject to any major seasonal or cyclical fluctuations during the financial year. Income taxes are calculated on the basis of an estimate of the expected income tax rate for the full year. For the consolidated interim financial statements, a CHF/EUR exchange rate of 1.065 was used as the end-of-period rate (31 December 2019: CHF/EUR 1.085) and 1.067 as the average rate for the period (prior year: CHF/EUR 1.128).

Impact of the Covid-19 pandemic

In March 2020, government measures against the spread of Covid-19 restricted economic activities in Switzerland and Italy. With the exception of the roaming business, the impact on Swisscom’s core business or telecommunications business is minimal. The roaming business recorded a decline as a result of reduced travel activity. Furthermore, Covid-19 resulted in a negative business trend in the cinema and event business. Based on Covid-19, Swisscom has reassessed key estimates and assumptions as at 30 June 2020. The key estimates and assumptions reported in the consolidated financial statements as of 31 December 2019 remained essentially unchanged as of 30 June 2020. At present, it is not finally possible to quantify the potential financial impact of Covid-19 as it depends on various factors (such as the extent and duration of the pandemic, government support measures to benefit the economy, customer behaviour in Switzerland and Italy, etc.), and there is a high degree of uncertainty regarding these factors.

1 Changes in accounting principles

As of 1 January 2020, Swisscom adopted various amendments to the existing International Financial Reporting Standards (IFRS) and Interpretations, none of which have a material impact on the consolidated financial statements of Swisscom.

2 Segment information

Changes in segment reporting

As of 1 January 2020, Swisscom amended its organisational structure in Switzerland and renamed the former "Enterprise Customers" segment "Business Customers". In order to provide all business customers with a customer experience tailored to their needs, Swisscom merged the SME and corporate customer segments. As a result, the telecommunications and solutions business with small and medium-sized enterprises is now reported in the Business Customers segment (previously Residential Customers) in segment reporting. In addition, Swisscom has bundled its Customer Field Services at its subsidiary cablex Ltd (up to now, in some cases within Residential Customers). This makes it possible to create even more customer experiences and to be even closer to customers. In addition, various areas were transferred between the segments of Swisscom Switzerland and Group Headquarters as of 1 January 2020. The prior-year amounts were restated as follows:

In CHF million	Reported	Adjustment	Restated
Net revenue			
financial year 2019			
Residential Customers	5,691	(955)	4,736
Business Customers (former Enterprise Customers)	2,312	928	3,240

Wholesale	524	(14)	510
IT, Network & Infrastructure	(2,642)	(33)	(2,675)
Swisscom Switzerland	1,750	(5)	1,745
Fastweb	155	–	155
Other Operating Segments	114	(1)	113
Group Headquarters	(74)	6	(68)
Elimination	(77)	–	(77)
Total segment result	1,868	–	1,868

General information

Reporting is divided into the segments “Residential Customers”, “Business Customers”, “Wholesale”, and “IT, Network & Infrastructure”, which are grouped under Swisscom Switzerland, as well as “Fastweb” and “Other Operating Segments”. In addition, “Group Headquarters”, which includes non-allocated costs, is disclosed separately.

Group Headquarters does not charge any management fees to other segments for its financial management services, nor does the IT, Network & Infrastructure segment charge any network costs to other segments. The remaining services between the segments are recharged at market prices. The results of the Residential Customers, Business Customers and Wholesale segments thus correspond to a contribution margin before network costs.

Segment expense encompasses the direct and indirect costs, which include personnel expense, other operating costs less capitalised costs of self-constructed assets, and other income. Pension cost includes ordinary employer contributions. The difference between the ordinary employer contributions and the pension cost as provided for under IAS 19 is reported in the column “Eliminations”. In the first half of 2020, an expense of CHF 31 million is disclosed under “Eliminations” as a pension cost reconciliation item in accordance with IAS 19 (prior year: CHF 29 million).

Leases between the segments are not recognised in the balance sheet in accordance with IFRS 16. The reported lease expense of the segments comprises depreciation and interest on leases excluding depreciation of indefeasible rights of use (IRU) of CHF 12 million (prior year: CHF 14 million), impairment losses on right-of-use assets of CHF 7 million (prior year: none) and the accounting for the rental of buildings between segments. The lease expense of assets of low value is reported as direct costs.

Capital expenditure consists of the purchase of property, plant and equipment and intangible assets and payments for indefeasible rights of use (IRU). In general, IRUs are paid in full at the beginning of the use and are classified as leases under IFRS 16. From an economic point of view, IRU payments will be considered as capital expenditure in the segment information. Capital expenditure in the first six months of 2020 includes IRU payments of CHF 6 million (prior year: CHF 27 million).

Swisscom Switzerland sells some mobile handsets on a subsidised basis in a bundled offering with a mobile communications contract. As a result of the reallocation of revenue over the pre-delivered components (mobile handset), revenue is recognised earlier than the date of invoicing. This results in contract assets deriving from this business being recognised. In the segment reporting of Swisscom Switzerland, the recognition and dissolution of these contract assets is reported as other revenue. The amounts invoiced are reported under revenue from telecommunications services or merchandise.

¹ Interest expenses, interest payments, non-cash changes and foreign currency translation adjustments.

In the second quarter of 2020, Swisscom became the first listed company in Switzerland to issue a Green Bond in EUR. The amount borrowed amounts to EUR 500 million (CHF 519 million). The coupon is 0.375% and the term 8.5 years. The funds raised will be used in line with Swisscom's Green Bond Framework or to repay existing debts.

Thereof current provisions	–	–	72	78	150
Thereof non-current provisions	704	243	4	82	1,033

In 2009, the Competition Commission (COMCO) imposed a fine of CHF 220 million on Swisscom for abuse of a market-dominant position in the area of ADSL services during the period through to 2007. Swisscom lodged an appeal against the fine before the Federal Administrative Court. In 2015, the Federal Administrative Court upheld the COMCO decision in principle, and reduced the fine imposed on Swisscom by COMCO from CHF 220 million to CHF 186 million. Swisscom believed the penalty to be unjustified and lodged an appeal to the Federal Supreme Court. In December 2019, the Federal Supreme Court dismissed Swisscom's appeal in the last instance and confirmed the sanction of CHF 186 million. As a result of the legally binding determination of market abuse, civil law claims were filed by telecommunications service providers in the second quarter of 2020. Based on legal assessments, Swisscom set aside provisions for any civil claims in prior years. Due to a reassessment of the interest effects, present value adjustments of CHF 31 million were recognised on these provisions in the second quarter of 2020. Any payments to be made will depend upon the date on which legally binding decrees and decisions are issued, and could occur within five years.

Contingent liabilities for regulatory and competition law proceedings

With regard to the contingent liabilities reported in the 2019 consolidated financial statements in connection with antitrust proceedings, Swisscom is of the opinion that an outflow of resources is unlikely and, as before, has therefore not recognised any provisions for this in the consolidated financial statements as at 30 June 2020.

Alternative performance measures

Swisscom uses key indicators defined in the International Financial Reporting Standards (IFRS) throughout its entire financial reporting, as well as selected alternative performance measures (APMs). These alternative indicators provide useful information on the Group's financial situation and are used for financial management and control purposes. As these measures are not defined under IFRS, the calculation may differ from the published APMs of other companies. For this reason, comparability across companies may be limited. The key alternative performance measures used at Swisscom for the interim financial reporting as at 30 June 2020 are defined as follows:

Key performance measure	Swisscom definition
Adjustments	Significant items that, due to their exceptional nature, cannot be considered part of the Swisscom Group's ongoing performance, such as termination benefits and significant positions in connection with legal cases or other non-recurring items. In addition, the application of changes in the IFRS accounting principles and standards can have an impact on comparability with the previous year if these principles are not applied retrospectively.
At constant exchange rates	Key performance measures considering currency effects (figures for 2020 are translated at the 2019 exchange rate to calculate the currency effect).
Operating income before depreciation and amortisation (EBITDA)	Operating income before depreciation, amortisation and impairment losses of property, plant and equipment, intangible assets and right-of-use assets, financial expense and financial income, result of equity-accounted investees and income tax expense.
Operating income (EBIT)	Operating income before financial expense and financial income, result of equity-accounted investees and income tax expense.
Capital expenditure	Purchase of property, plant and equipment and intangible assets and payments for indefeasible rights of use (IRU) which are classified as leases under IFRS 16. In general, IRUs are paid in full at the beginning of use.
Operating free cash flow proxy	Operating income before depreciation and amortisation (EBITDA) less purchase of property, plant and equipment and intangible assets and payments for indefeasible rights of use (IRU) and lease expense. Lease expense include interest expense on lease liabilities and depreciation of right-of-use assets excl. depreciation of IRUs and impairment losses of right-of-use assets.
Free cash flow	Cash flows from operating and investing activities excl. cash flows from the purchase and sale of subsidiaries and purchase of and proceeds from equity-accounted investees and other financial assets.
Net debt	Financial liabilities less cash and cash equivalents, current financial assets, derivative financial instruments held to hedge financial liabilities and other non-current financial assets directly related to non-current financial liabilities (certificates of deposit and U.S. treasury bond strips). See interim report page 11.
Net debt incl. lease liabilities	Net debt and lease liabilities.

Forward-looking statements

This interim report is published in German and English. The German version is binding.

This interim report contains forward-looking statements. In this interim report, such forward-looking statements include, without limitation, statements relating to our financial condition, results of operations and business and certain of our strategic plans and objectives.

Because these forward-looking statements are subject to risks and uncertainties, actual future results may differ materially from those expressed in or implied by the statements. Many of these risks and uncertainties relate to factors which are beyond Swisscom's ability to control or estimate precisely, such as future market conditions, currency fluctuations, the behaviour of other market participants, the actions of governmental regulators and other risk factors detailed in Swisscom's and Fastweb's past and future filings and reports, including those filed with the U.S. Securities and Exchange Commission and in past and future filings, press releases, reports and other information posted on Swisscom Group Companies' websites.

Readers are cautioned not to put undue reliance on forward-looking statements, which speak only of the date of this communication.

Swisscom disclaims any intention or obligation to update and revise any forward-looking statements, whether as a result of new information, future events or otherwise.
